3. Photography Course.

In response to suggestions from members our club is running a basics course on how to use your camera. The course is aimed at new members who would like to know some fundamentals and how to get a little more out of their camera by taking it off the AUTO setting and still have success.

If further interest is shown, the club may offer more classes - let the committee know your thoughts on this one (by email, snail mail or in person).

Presenters for 2006

We need presenters for 2006. If you are able to present some of your slides or prints, please let Charles Tilley know as he has taken on the task of coordinating presenters. We can help organize your work into a PowerPoint presentation if desired.

Visiting Judges - Accommodation

In order to bring judges to the WACC, from time to time we need to offer accommodation. Our budget does not allow for Motels so we need members to offer a bed to our guests. A number of members have done this in the past, but we would like to gather a list of names of members willing to accommodate our future judges. If you are able to do this please see Kerry or Brian. Your help would be much appreciated.

New Member

Mark Portelli was approved at the Sept. Committee meeting as a member. Please introduce yourself and make all our new members feel welcome.

Mt Carmel Christian School - Photography Comp.

Two committee members judged the comp. and were pleased by the quality of the images. Each year this school encourages students to enter our Show Comps.

We would like as many members as possible to enter work in this exhibition, so let's see your best pics presented at their best for this event. See attached flyer. NEGV NEWS

Meeting Dates for 2006 are as follows: -

November 11th - Wodonga-Albury (Entries due Oct 13th).

Workshops - Nov 11th & 12th.

We have funding from the City of Wodonga to help run workshops for the whole weekend. We are currently seeking photographers to cover the areas of 'Producing Large Format Negatives on the Computer' and using these in contact printing - Gum Bichromates. These can also be used for van Dyke printing (for which a workshop that has been a long time coming, but will happen early 2007).

To produce B&W large format negs., a B&W image must first be produced from a digital file, so we will learn to do this first.

We may present images derived from these workshops in an exhibition, also in 2007.
