Colour Prints – Section 'B' (Red Dot)						
1	189	Mr and Mrs Daly	10	pts	Place	
Well framed, well exposed and really sharp. Although taken in the city is really an image of a cemetery						
2	179	Walking into Town Mexico	15	pts	Place	1st Place
Brings out the other features of a city rather than hustle and bustle almost it can be a lonely place and not always pretty.						
3	175	Point of View	11	pts	Place	
Good effort on the city building Architecture. You picked a good point of view. Not quite perfectly sharp. Good exposure in a situation.						
4	173	Laneway Demon	12	pts	Place	
Laneway art. What cities particularly Melbourne become famous for. Well exposed and composed in generally difficult conditions.						
5	117	Melbourne Skyline	10	pts	Place	
Great sky. Just make sure the camera is really stable. Tripod on a stable surface. required.						
6	116	On the Move	12	pts	Place	
Well composed, sharp, good use of the curve and leading lines. Smog in the distance really emphasises the city.						
7	79	Ready to Ride	14	pts	Place	2nd Place
Lots of impact. Great colour, maybe get down low, still keep the bike racks but eliminate much of the background cars etc.						
8	64	Royal Arcade Melbourne	13	pts	Place	Merit
Well exposed. Focus is on the Royal Arcade sign rather than main subjects ---- the 3 men.						
9	37	Lunch and Shop	10	pts	Place	
Brings out the features of the iconic street. Sharp but overall exposure is a problem...lighting is a problem and difficult, a compromise between the architecture and people is needed or big full flash.						
10	36	Perfect Harmony	11	pts	Place	
Well composed and balanced. Good light. Overall image is not sharp. For this type of image it needs to be pin sharp.						
11	4	Floating	10	pts	Place	
An interesting pic. Probably in this situation to use a tripod and long exposure--though a tripod can draw attention.						
12	54	Catching Up	13	pts	Place	Merit
Nicely caught. Very typical urban sight. Maybe crop in a bit closer. Good colour and exposure.

3	161	Wodonga Old Railway Station	10	pts	Place	
Reasonably sharp and exposure. Need a centre of interest, some focal point. The people are too blurred to create interest.

Busy city river, great light, great colour, well framed and nice and sharp.						
5	==	===== entry withdrawn =====		pts	Place

Well seen, architecture [unusual] as well as incorporating the city traffic in particular the iconic tram. Sharp and well exposed.						
8	68	Rush Hour	12	pts	Place	
Nice and sharp. bit of use of dodge tool to highlight the building on the right. Mybe a slightly tighter crop to eliminate the distracting car [bottom left corner.						
9	1	Sydney Quays	11	pts	Place	
Quite an interesting image, just lose some of its impact because of the overall darkness.						
10	12	High Rise	11	pts	Place	
Well composed and balanced. Not a sky that helped you. Overall needs attention to sharpness and exposure.						
11	43	North Terrace	13	pts	Place	Merit
Good city architecture shot. If possible use the burn tool to darken and bring out some detail on the clock tower. The clock draws the eye.

Very well seen, made for a very interesting pic. Good focus and exposure.

Looking at the city from a different perspective. Great overall effect. Good tones in mono. (<i>amazing the amount of solar Hw</i>).						
11	81	Geelong Library	11	pts	Place	
Quite a good architectural shot. The composition is a little confusing. In this case the handrail leads the eye away rather than to the main subject.						
12	79	Ready Set	11	pts	Place	
Good tone range, good blacks and white. Quite well composed. Very sharp.						
13	78	The Sleeper	12	pts	Place	
A good PJ image, getting the subject along with the reflected traffic was well done. Good tones also sharp. Tells a story.

Well exposed and good tones. Nice and sharp. Probably just needs [maybe a person] to improve impact.						
15	64	People Make Glasgow	11	s	Place	
Sharp, well exposed in a difficult situation. Some use of the dodge tool may help the buildings on the right.						
16	43	After the Shower	11	pts	Place	
Well exposed and sharp. Image needs some element to give it some impact.						
17	37	Things You See	11	pts	Place	
Good try, really needed to make use of the artwork by getting down low. Exposure on printing resulted in a slightly "muddy" image.

Good PJ maybe exposing the lesser side of city life. Overall the image is soft on focus.

Wodonga / Albury Camera Club

1	168	Marina Bay Sands	15	pts	Place	1 st Place
Pin sharp, great leading lines. Good star bursts and excellent composition.						
2	163	Times Square	12	pts	Place	
City life. Maybe get people feet in and a bit less of the top.

Iconic - quite well done. Maybe a slower speed to get the rope in blur or more places.						
4	152	Still Morning at South Bank	11	pts	Place	
Comments: Nice cool morning colours, good reflections. A spot for the eye to rest would be nice.						
5	148	Blue Bikes	11	pts	Place	
Good shot using the leading line of the bikes. A centre of interest down the end would have given impact.						
6	129	Santorini	13	pts	Place	Merit
Very interesting shot. Great contrast between the stark whiteness and the splash of colour against the dark cliff.						
7	113	What Do You Reckon	13	pts	Place	Merit

Good image just making it a little different. Check your horizon.

Nice and sharp with good colour. Just needs something to give it a little more impact.						
11	78	Peak Hour	11	pts	Place	
Depicts city life leading down to the end of the street. Sharp. Maybe get down lower for a different perspective.						
12	12	On the Move	12	pts	Place	
Really good effort and quite sharp for a long exposure. Unfortunately, that banner in the middle divides the image.						
13	43	City by Night	14	pts	Place	2 nd Place
Very sharp, bright, impact. Shops on right work as a centre of interest.
