President's Report

For the past seven years the club has operated under the Presidency of David Willis. Now we have a change so what does that mean for the club and members?

Naturally, the aim of the club remains unchanged. That aim being to actively encourage and promote photography in all its aspects. However, a change of leadership usually brings some changes to the format on how we approach that aim.

Everyone's a photographer

Yep! Him too.

Meanwhile, Christmas is on our doorstep. For some members it will be having time with family and friends, whilst for others, a quieter time will be had. Regardless of either, don't overlook, at some stage, your camera or even your phone to capture the occasion of family and friends, as such images can prove so valuable in future years/generations.

Whatever the number or noise factor, or the location, I personally wish every member a most enjoyable Christmas and look forward to us all having a very good 2019 photographic year.

Workshop – A Great Evening

A number of members attended the workshop sessions on 26th November at Xavier High School.

Whilst David Woolcock took care of members wanting to know about lens calibration other members ventured into the darkened depths of the hall.

At one end Phil Bell dazzled all with a multitude of coloured lights providing various patterns and movement. At the other end Louise Peacock advised on the techniques and various camera settings for capturing creative images with long exposure and flash.

Neville, Bill and Brian took on the role as models with great enthusiasm and mobility.

All present had ample time and space to get involved and ended up with a variety of some very interesting and unusual images.

Early 2018 saw the club introduce the **BUDDY SYSTEM** Although slow to start we will push ahead with the concept again in 2019.

I need members willing to welcome and chat with every new and prospective member that you meet while in or at a club meeting.

Let's try to chat with people / members within the club that we don't know, get to know them. You never know what will happen.

I would also like to form a list of what type of cameras you use so to help you and others with the same brands.

Your input is most welcome

Email me at tinker1947@bigpond.com or chat on 0400846539. Thanks, Phil Bell

Christmas Party at Jindera Hotel

A fantastic turn up of around 30 Members and partners on Sunday 2 December.

Chris Kringle gifts were exchanged, with great frivolity among us all.

Thank you from all of us for your attendances and gifts.

Merry Christmas!
Happy New Year!
Stay Safe!
