PO Box 46, Wodonga Vic 3690

## President's Message:

The 2019 WACC calendar is up and running. Along with a new year comes resolutions which I, personally, don't get carried away with as make and break are too closely related.

However, there are two 2019 resolutions which I will be attempting to achieve in relation to our camera club. Firstly "good communication" between all levels makes for the smooth flow of all undertakings within any organization/club.

A distribution change to our monthly newsletter has already been made whilst emails will be issued on a regular basis with the latest updates as they occur.

Second resolution is variety to our meetings and outings. This can be a challenge at times however, nothing ventured, nothing gained. With a positive approach, from all members, I feel we can achieve much throughout 2019 so let's get going.

President Brian

### Another Resolution:

Image **resolution** is the detail an image holds. The term applies to raster digital images, film images, and other types of images. Higher **resolution** means more image detail.

## Diary Dates

**Monday 21<sup>st</sup> January 2019 @ Boomerang Hotel 7:30pm**  
"What is Nature?"  
Comp Results-Hint of Colour-Bert Hoveling

 Contact Phil: 0400 846 539

Following on from the President's message if you would like to be teamed up with a member who has the same photographic interests, uses (at least) the same brand of camera then contact Phil Bell. 0400 846 539 or email: [tinker1947@bigpond.com](mailto:tinker1947@bigpond.com)

*"To me, photography is an art of observation. It's about finding something interesting in an ordinary place... I've found it has little to do with the things you see and everything to do with the way you see them."*  
**Elliott Erwitt**

(an American Advertising & Documentary photographer known for his black & white candid shots of ironic and absurd situations.)

**Is Photography an Art or a Science?**

As an **art**, **photography** is a means of visual expression often used to record and interpret the human condition. ...

**Photography** in itself is **science**.

It does not become **art** until someone comes along and does more than a technically accurate picture.

+++++

**How can I improve my photography skills?**

- Go through your camera's user manual. ...
- Make the most out of what your camera can do. ...
- Use a tripod. ...
- Use the edges of each element as a guide in framing your photo. ...
- Expose yourself to as many good photos and photographers as possible. ...
- Ask for feedback.
