

**Misty Dawn** (*Monochrome Print*)

*Photography by Jill Hancock*

High quality print both in technique and aesthetics. It has the appearance of the best of Chinese and Japanese pictures full of mist and a spiritual aspect to its appearance. The delicate tracery of the trees in the water has been masterfully captured. The print should do well in both National and International salons. Congratulations for letting me see one of the best B&W images this year and that includes VIGEX.
