

# WACC Visual Pursuits

Win's guide for anyone having a little bit of trouble:

Please use the Login Name and Password below to login:

Your Name: Win Van Oosterwijck

\*\*\*\* Note: Your Login Name is NOT your real name and does not contain any blanks.

\*\*\*\* Note: Most people use their email address because it is easy to remember.

Login Name: winvan@bigpond.com

Password: \*\*\*\*\*

Website: [wacc.visualpursuits-au.com](http://wacc.visualpursuits-au.com)

## Set Up

1. Log on to Web site: <https://wacc.visualpursuits-au.com>. Save to Favourites.
2. Change your password to something memorable or use a password manager.
3. Complete your information and check out categories, list of members etc.
4. I set up a folder on my desktop with this information and folders for monthly images.

## Prepare Image

1. Max 1,920px long side by 1,080 px short side (if 6x4 = 1,620 x 1,080 px) at 300 dpi
2. Keep image size to 2MB
3. If your image will be used in multiple categories with different category sizes prepare it for the largest and the image will be resized down for judging.
4. Title up to 50 characters
5. Same naming convention **but use a space instead of the tilde** ~
6. You do not need to include your WACC member number or category in the title  
e.g. **113 Swift Parrot EDIA** can simply be **Swift Parrot**  
Visual Pursuits already knows your member number, whether you are a Photographer or Advanced, and the competition determines the category (EDI or EDIA versus EDIM or EDIMA).
7. Apparently EXIF data can be lost in composite images so not a prerequisite for submission.

## Competitions

1. Open Competitions/Current Competitions
2. Look at RHS column – Close Date /Time  
If submitting in December, look for the Competition Date (February on the LHS) and the Close Date/Time (December) on the RHS.
3. Click on Select – LHS column, find your image and Save
4. Do the same for Monochrome.
