

WODONGA ALBURY CAMERA CLUB DIAMOND JUBILEE EXHIBITION

Creator's Artspace, Gateway Island Wodonga.

Wednesday 6th February – Sunday 3rd March 2013

Official Opening Friday 8th February 6.00pm – 8.00pm

The Wodonga-Albury Camera Club (WACC) this year is celebrating its 60th Anniversary.

Formed in February 1953, the club has been a hub for sharing photographic knowledge for six decades.

This, our Diamond Jubilee Exhibition, is a celebration of the photographic prowess of members current and past. For this years exhibition we have encouraged entries from former members of the club as well as current members. This will, in part, recognise the contributions, big or small, made by all members to the club's continued success.

A passion for photography and the willingness to share images, techniques, processes, and thoughts on the art are what binds club members.

Photography is fun and for everyone! All of the images exhibited are by club members or former members from our Border community.

The club caters for all standards of photographer from beginner to semi professional, and for many, this annual event will be their only opportunity to have work exhibited in a gallery.

“The Wodonga-Albury Camera Club plays an important role in the promotion of photography within our community, and with this exhibition we hope to inspire those with an interest in photography, and perhaps highlight the benefits of being involved with a group of similarly minded people”

Entry to the exhibition is free. Many of the images will be for sale during the exhibition.

The club will also be holding a 60th Anniversary Dinner on Saturday 9th February at the Panthers Sports Club, Lavington.
